This is a marvellous design, it has the look for 2016 lifestyle and certainly open plan living to the rear of the home will be appreciated by all buyers.

There is a main living area to the front of the home of generous proportions and with access from the entry. The flow of the home is excellent with a powder room on the lower level, two bathrooms on the upper level, three good sized bedrooms, the main bedroom being an excellent room with a balcony to the front with a stunning view over the parks, gardens and reserves and the generous ensuite and excellent cupboard and storage space.
