The main living room of the resident is a very generous room with excellent views. This room is 6m x 4.3m.

The flow of the home further leads to the family area of the residence and further through to the everyday meals area which is adjacent to an upgraded well-proportioned kitchen with ample cupboard and bench space.

The everyday living area opens out to a spectacular gable roof pergola of 4m x 4m which is a great room. This area is ideal for entertaining on a grand scale externally.
