Homes with land holdings as large as these will always be sought after. Certainly each property has an abundance of land front and rear which is very desirable.

Each home has the ability to be a good family home as the living areas are very generous in size and the upper level bedroom accommodation is excellent. 2 of the homes have large rumpus rooms or second living areas on the upper level and main bedrooms with large walk in robes and an ensuite. All other bedrooms have built in robes.

Do not miss the opportunity. These are very desirable
